

Oil-in-water-emulsion for everyday skin and hand care with a pleasant and fresh scent.

esemtan® jojoba care lotion

Our plus:

- moisturizing oil-in-water emulsion
- contains jojoba-oil
- quickly absorbed by the skin

Product features

esemtan® jojoba care lotion is an oil-in-water emulsion that contains the natural ingredient jojoba-oil.

esemtan® jojoba care lotion preserves the natural hydrolipid film of the skin through a well balanced supply of oil and moisture. esemtan® jojoba care lotion does not leave a sticky residue on the skin and is quickly absorbed by the skin.

Jojoba-oil originates from the boxwood plant. It is high in essential fatty acids, that play an important role for skin protection. Products with jojoba oil show a positive protecting as well as caring effect to the skin.

Application areas

For hand and body care for all skin types.

Skin care for personnel

Apply esemtan® jojoba care lotion during breaks and if needed (e.g. after hand washing). Apply product onto well dried hands respectively massage gently into dry skin after bathing or showering.

Skin care for patients

esemtan® jojoba care lotion can be used for caring for patient's skin especially for dry and rough skin (e.g. geriatrics) after bathing or showering.

Application methods / indications

Apply esemtan® jojoba care lotion to the skin and rub in gently. When caring for hands apply esemtan® jojoba care lotion to the back of one hand and spread first, first from one back to the other back of the hand and then also to the palms of the hands.

In order to ensure a hygienic use, using dosing pumps or dispensers is recommended.

How to cream your hands properly

- For hygienic reasons, the product should be extracted via pump or dispenser.
- Rub the product gently into clean/dry hands.

- Apply the product to the back of the hand and spread the cream with the other back of the hand.

- Afterwards, also use fingers and, finally, the inner side of the hand to spread the cream.
- While rubbing it in, pay special attention to the space between the individual fingers and to the nail bed.

Environmental information

schülke manufactures products economically and with advanced, safe and environmentally friendly production processes while at the same time maintaining our high quality standards.
