

Intensive care and regeneration for demanding and weakened skin

with Panthenol

sensiva® regeneration cream

Our Plus

- rich regeneration cream
- encourages skin regeneration
- colour- and perfume-free
- dermatologically tested

Application areas

- to be applied to clean, dry hands
- special skin care and regeneration of stressed and damaged skin
- after work, e.g. over night

Product Profile

- rich regeneration cream, which adjusts to the skin natural hydrolipidic film
- contains Panthenol, which supports the skin regeneration and soothes skin irritations. Restores the smoothness and elasticity of the skin.

Instructions for use

Apply sensiva® regeneration cream and rub into the skin. Apply sensiva® regeneration cream to the back of your hand and rub at first the backs of your hands together, then the insides of your hands.

The product does not contain perfume. Nevertheless, it may be that it does not always smell the same on the skin. This is because the skin structure of every human being is unique. Thus, an odorless product is perceived differently on different hands.

- For hygienic reasons, the product should be extracted via pump or dispenser
- Rub the product gently into clean/dry hands

- Apply the product to the back of the hand and spread the cream with the back of the other hand

- Afterwards, apply the cream to the fingers also, and finally to the inside of the hands
- While rubbing it in, pay special attention to the areas between the fingers and to the nail beds

sensiva[®] regeneration cream
