

Colour- and perfume-free water-in-oil based care emulsion, for care of dry skin.

sensiva® care emulsion

Our Plus:

- for comprehensive care of damaged and dry skin
- also suitable for whole-body care
- does not reduce the effect of hand disinfectants
- low allergy potential

Product properties

- easy-spreading
- deodorising effect due to farnesol (active ingredient of lime blossom)

Application areas

- Special product for medical staff.
- In order to maintain the skin intact when it is dry, it is recommended to use sensiva® care emulsion because of the richness of water-in-oil preparations, after end of work, after strongly skin-stressing activities or at night.

Application methods / Instructions for use

Apply sensiva® care emulsion to the skin and rub it in gently.

Apply sensiva care emulsion to the back of one hand and spread it, first from one back to the other back of the hand and then also to the palms of the hands.

In order to ensure a hygienic use, the RKI recommends using dosing pumps or dispensers.

How to apply a hand care product

- For hygienic reasons, the product should be extracted via pump or dispenser
- Rub the product gently into clean/dry hands

- Apply the product to the back of the hand and spread the cream with the back of the other hand

- Afterwards, apply the cream to the fingers also, and finally to the inside of the hands
- While rubbing it in, pay special attention to the areas between the fingers and to the nail beds
